~~2/9/06~~

in or about Apr. / 2005 I received a check from an individual (A) who wanted to buy my business for \$150K based on equipment and ~~and other assets~~ stay on in the business for 3 months.

A gave me an \$850K check and he told me that the surplus (\$700K) was to be paid to other people.

I remember filling out 3 checks, two of them checks were for \$60K and \$5K. The payees were possibly left blank.

The \$800K check was cleared. a second check for \$375K was given to me by A. This check also did not clear.

The second check (\$375K) was this amount because A cut out a lot of the middle man.
